SEC. HUGHES IN TALK TELLS OF FOREIGN STAND

States American Pol- icy Regarding Euro- pean Affairs

PHILADELPHIA, Nov. 30.—American foreign policy today, whether with relation to conditions in Europe, Latin-America or the Pacific squares consistently with the Monroe Doctrine, Secretary Hughes said in an address here tonight before the American Academy of Political and Social Science gathered in celebration of the centenary of the doctrine. With that declaration as his text the secretary delivered a comprehensive restatement of the position of the United States in relation to the European tangle, the east and Latin-America. He said the American nation would rather bear such ills, as might result from its present policy with Europe, than suffer the evils which would follow the sacrifice of our independent position; reasserted the adherence of this government to the principles of peace in the Pacific laid down by the arms conference; and set forth nine propositions which he said should govern relations with the sister republics of the western hemisphere.

All of these policies Mr. Hughes asserted accorded entirely with the Monroe Doctrine, which "remains an essential policy to be applied whenever any exigency may arise requiring its application."

In Late War

Taking up the relationship between a policy toward Europe and the Monroe Doctrine, he said: "We entered the great war, not violating our tradition for the cause of liberty itself was at stake. We have emerged from the war with the same general aims we had before we went in. Though victors, we have sought neither territory nor general reparations. Our people have borne their own burdens and in large part we are bearing the burdens of others."

"We are not seeking to dictate to Europe or to deprive any one of rights. But we do desire peace and economic recuperation in Europe. "It is because of these earnest desires that we have hoped that the solution of the present grave problems would be sought in fair and comparative inquiry in which all interested might participate which would be inspired by determination to find means to restore the productive activities thru which alone reparations can be paid and to give opportunity for the real contentment and the amiable relations of industrious peoples thru which alone peace and security can be assured."

"The bitter controversy which followed the war showed with what tenacity we still hold to the principle of not meddling in the political strife of Europe. "Generally our policies toward Europe may thus be summarized: Oppose Alliances

"We still are opposed to alliances. We refuse to commit ourselves in advance with respect to the employment of the power of the United States in unknown contingencies. We reserve our judgment to act upon occasion as our sense of duty permits. We are opposed to discriminations against our nationals. We ask fair and equal opportunities in mandated territories as they were acquired by the allies thru our aid. We desire to co-operate according to our historic policy in the peaceful settlement of international disputes which embrace the policy of judicial settlement of such questions as are justifiable."

"So far as the Pacific and Far East are concerned, Mr. Hughes said the United States had developed "the policies of (1) the open door, (2) the maintenance of the integrity of China, (3) co-operation with other powers in the declaration of common principles, (4) co-operation with other powers by conference and consultation in the interest of peace, (5) limitation of naval armament and (6) the limitation of fortifications and naval bases."

Nine Policies

"The nine 'affirmative policies' of the United States enumerated by the secretary as a fitting complement to the Monroe Doctrine include a declaration of the equality of the American republics and their equal rights under the law of nations, an assertion that 'it is the policy of this government to make available its friendly assistance to promote stability in those of our sister republics which are especially afflicted with disturbed conditions.'"

"We are not aiming at control but endeavoring to establish self-control," and a statement, "that the United States is seeking unconditional most favored nation treatment in customs matters."

Mr. Hughes also declared that the "adequate protection of the Panama Canal—its complete im-

IRENE CASTLE WEDS WEALTHY CHICAGOAN IN QUIET CEREMONY

Noted Dancer Takes Coffee Merchant for Third Husband

CHICAGO, Nov. 30.—Irene Castle, who as the wife of the late Vernon Castle tangoed and turkey trotted her way to international dancing pre-eminence and Frederick McLaughlin, wealthy Chicago society man and coffee merchant, were married at the McLaughlin residence here Wednesday night and are now somewhere in the west on a three months' honeymoon, it was announced here today.

Chicago society was frankly surprised by the news of the wedding which was witnessed by only six friends of the contracting parties, according to information divulged by Mr. McLaughlin's private secretary. While these friends were, who the minister was and what religious denomination he represented, where the bride and bridegroom were honeymooning and other information the secretary "didn't know" or "couldn't remember."

He admitted that Mr. McLaughlin had known his bride for several years and said that the couple will "make their permanent residence in Chicago when they return from their honeymoon."

According to one friend of the couple they have started for a trip to China.

Major McLaughlin commanded a machine gun battalion of the Blackhawk division during the world war and was known as a crack polo player. He was divorced in 1910 from the former Miss Helen Wyle of Baltimore, Maryland.

BRUNDAGE ANNOUNCES CANDIDACY FOLLOWING MEETING IN CHICAGO

Record is Endorsed Unani- mously by Downstate Leaders

CHICAGO, Nov. 30.—Attorney General Edward J. Brundage today announced he would be a candidate for re-election on the Republican ticket. His announcement came at the close of a conference with about 50 downstate political leaders held here today, when a resolution endorsing his record and urging his candidacy was adopted.

"I called the conference of downstate leaders," the attorney general, who has opposed many of the policies of Governor Small said, "to inform them that I did not want to be a candidate and to try to agree on some one to make the race. The result of the conference was a resolution unanimously endorsing me so there seemed little else for me to do but enter the race."

The resolution adopted by the meeting read: "Resolved, That it is the unanimous sense of this meeting that Edward J. Brundage, because of his experience in the office, his demonstrated ability, his splendid courage, his unimpeachable integrity and his character is the outstanding candidate for attorney general of Illinois."

Mr. Brundage directed the prosecution of Governor Small who was acquitted on a charge of conspiring to defraud the state of interest on state funds while state treasurer and also directed the prosecution of those indicted in connection with the Herrin mine riots.

The resolutions consider the Coblenz cabinet dissolved and announced the determination to reorganize the Separatist movement under Matthews. Matthews was appointed at the meeting to conduct negotiations with the French and Belgian authorities.

There was talk in the reichstag lobbies tonight to the effect that Dr. Marx intends to carry on the government under some sort of modified "authoritarian law," with the spectre of the dissolution of parliament forever hovering in the background.

CHICAGO'S CHRISTMAS TREE SHIP ARRIVES

CHICAGO, Nov. 30.—Chicago's

Christmas ship is back in port. The jowling mastless old Schooner Fearless today limped up the Chicago river groaning under the weight of Michigan's evergreens, while a little woman trod her decks and upheld the traditions of her husband, killed while bringing Chicago its cargo of Christmas trees.

Eleven years ago Captain Schuenemann was drowned when his boat went down in a terrific lake storm while bringing his annual load of evergreens here. His widow took up the task and each year went into the forests of Michigan, "spotted" her trees, hired woodsmen to cut them, chartered a ship to haul them and brought Chicago its Yuletide greens.

This is the first time in four years, however, that Mrs. Schuenemann has arrived with her Christmas ship, for she has been unable to charter a boat in recent years. Today, however, the little motherly captain's widow stood proudly on the deck as her cargo of 10,000 trees lumbered up the river giving the city dwellers an unexpected breath of the forests.

STRANGE STORY IS DOUBTED BY JUDGE

ST. LOUIS, Mo., Nov. 30.—

(AP)—Circuit Judge Barton, who several months ago annulled the marriage of Mr. and Mrs. A. H. Kattler at Rolla when they told him they just had learned they were brother and sister after being married 16 years, tonight at his home announced he would present the facts to the prosecuting attorney for action as he has been advised the couple perjured themselves.

The judge said that he had learned that the woman's father Dr. P. Hopkins of Stapleton, Nebraska, has denied the story the couple told, which was, in effect that Kattler had left home before his wife was born, that after she was stolen by Gypsies and that he rescued her in Nebraska. They said they did not learn they were brother and sister until a few months ago.

CLAIM YOBMAN ORDER GUILTY OF FRAUD

Des Moines, Iowa, Nov. 30.—

Charges that negotiations by the Brotherhood of American Yobmen for a site on which to build a great children's home, were carried on without any intention of constructing such a home immediately, and for the purpose of inducing residents of localities under consideration to invest in Yobmen insurance, were contained in the injunction petition filed in district court here by holders of fraternal policies in the order, it was disclosed late today.

Allies Want U. S. In Reparations Council

PARIS, Nov. 30.—(AP)—Allied circles believe the reparations commission by its action today paved the way for the United States to participate in an expert examination of Germany's position. The commission decided to appoint two expert committees one to examine means of balancing Germany's budget and stabilizing her finances and the other to look into the question of capital exported from Germany and devise ways of getting it back.

The resolution appointing the committees mentions no limitations to the scope of their inquiry further than to state that it would be held under the terms of Article 234 of the treaty of Versailles. The allied representatives believe that under these circumstances the American government may find the latitude given the committees sufficient to afford all the necessary opportunity for useful work.

Adoption of the resolution which was by unanimous vote, was the result of a compromise in which both the French and British made concessions and the text was drawn up after a long consultation in such a way as to allow them to withdraw from the uncompromising attitudes previously maintained without giving ground for a shout of victory from either side.

The crux of the compromise was the decision to leave aside for the moment all the controversial phases of the reparations question and to take up first the most urgent need—the renovation of Germany's finances—and the next the question of getting hold of the enormous balances Germany has abroad. It is hoped that when these subjects have been thoroughly examined the allies will have found a basis upon which they can agree in regard to other features of the reparations problem such as the method of payment by Germany and the amount that is finally to be demanded of her.

American participation in the committee is regarded by the allies as essential. It is not thought the American delegates must necessarily be officially nominated by the United States government. If objections are still found in Washington to the scope of inquiry there is strong hope that the American officials will at least be willing to suggest the names of a leading financial authority and a leading banker for each committee.

The commission will probably be ready to propose the names of the members of both committees by the end of the next week. They will be the most eminent authorities available in each country. The committee on balancing the German budget probably will meet first in Paris and afterward in Berlin, while the committee on exported capital may meet in London where a considerable part of the German foreign balance is deposited.

JOHN P. LOONEY, LONG SOUGHT ROCK ISLAND CRIMINAL IS CAPTURED

Charged With Crimes Rang- ing from Murder to Larceny

ALBUQUERQUE, N. M., Nov. 30.—John P. Looney, wanted at Rock Island, Ill., on a charge of murder who was arrested at Belen, N. M., Wednesday, today was transferred from the county jail here where he was lodged last night, to Santa Fe, N. M. The removal followed conferences between United States District Attorney George R. Craig and W. J. Barker, of Santa Fe, Looney's attorney. An arraignment before the United States commissioner, which was scheduled for this afternoon was called off when the new arraignment was agreed upon.

Craig said that application would be made in federal court at Santa Fe for the removal of Looney to Illinois. The hearing probably will not take place until Monday, Craig said.

Looney, who disappeared from Rock Island in 1922 during an investigation of vice and gambling conditions for which he was alleged to be responsible was arrested at Belen, N. M., Wednesday and was brought to the jail here last night. He admitted his identity to U. S. District Attorney Craig. Mr. Craig said last night, Looney is said to own a 20,000-acre ranch in Rio Arriba county, to which he was followed by a posse recently after it was reported he had been in Santa Fe to consult a lawyer.

According to District Attorney Craig, Looney said he was not afraid of the charges against him, but that his political enemies in Illinois would "get him" if possible.

Looney was editor of the Rock Island News which has since been closed. A series of eight killings led to the investigation of vice conditions in Rock Island. Looney last night refused to talk to newspapermen.

Clothing of Young Star Ig- nited While Waiting in Auto

SAN ANTONIO Texas, Nov. 30.—(AP)—The body of Martha Mansfield, leading woman in "The Warrens of Virginia" being filmed in and around San Antonio, who died here today from burns, will be sent to New York Saturday morning at the request of her mother.

Miss Mansfield, who was 23 years old, died at noon from the effects of burns received while at work in the film in Breckenridge Park. The young star had just finished the scenes in which she appeared and had retired to an automobile where she was seated with some friends when her flimsy colonial dress was accidentally ignited by a falling match. She jumped from the car aflame. Men in the cast came to her rescue and Wilfred Lytell, leading man of the company threw his heavy overcoat over her thus preventing her face and neck from being burned. The fire was extinguished but she received severe burns about the body.

She was rushed to a hospital where she was placed under the care of four physicians. She remained there until her death less than 24 hours later, the announcement was given out late Thanksgiving Day by Elmer Clifton, director of the company that her condition was not serious.

BIG GUS SEIDLER TO REMAIN IN JAIL TILL TIME FOR HIS TRIAL

Habeas Corpus Proceedings Withdrawn By His Attorneys

EDWARDSVILLE, Ill., Nov. 30.—"Big" Gus Seidler, paroled convict, chief of Governor Len Small, will have to stand trial December 17, on a charge of assault with intent to commit murder, his writ of habeas corpus for release from the Madison county jail having been withdrawn when it came to trial this morning.

No explanation was offered by the attorneys representing Seidler for their request to have the habeas corpus writ dismissed and no evidence was offered in support of Seidler's contention as stated in the petition, that he was a helpless victim and an unwilling instrument in the hands of alleged conspirators whose purpose it was to injure the political standing of Governor Small to the advantage of State Senator Thurlow G. Essington, who will oppose the governor for the Republican nomination next year.

William S. McNamara, one of Seidler's attorneys, declared, however, that every contention in the habeas corpus petition would be taken up when the assault charge was called for trial.

The case was originally set for next Monday but was postponed today upon request of Seidler's attorneys.

As a result of the withdrawal of Seidler's writ of habeas corpus he will be held in jail until the trial is settled.

ILL. CHIEF JUSTICE IN ADDRESS SCORES FEDERAL TRIBUNALS

Says State Governments Might as Well Cease to Exist

CHICAGO, Nov. 30.—(A.P.)—The drift towards centralization is the most startling and dangerous development of the hour, Senator James A. Reed, of Missouri, declared tonight before the annual meeting of the Illinois Bar Association. Chief Justice William F. Farmer of the Illinois Supreme Court also addressed the meeting.

"The tidal wave towards centralization has now swept on past Washington," Senator Reed declared, "and the demand is for world courts and world tribunals to regulate the affairs of all creation."

"Men proposing such courts and willing to repose the power they must have if they are to be effective," Senator Reed declared, "are poor representatives of that patriotism which Washington and Lincoln taught."

It was undoubtedly the purpose of the framers of the constitution that the states should remain complete sovereignties, save as to those particular powers expressly laid out to the federal government," he declared.

"Federal Docket Crowded. "Dockets of our federal courts now are crowded with cases, hitherto cognizable by state courts," he said. "Federal officers by the thousands swarm over the country assuming a right of espionage and arrest, repugnant to the genius of our government and offensive to our civilization."

"Regulation of transportation entirely within the respective states has been to all intents and purposes taken over by federal tribunals. Courts, of quasi-courts have been established with authority to pry into the business and private affairs of institutions to examine their books and papers and to haul them to Washington for examination."

"There is scarcely any activity in life, from the rearing of babies to the mashing of armies, which is not now subject to the surveillance and jurisdiction of the government officers, agents, spies and courts. The movement need progress but a little further and state government might as well cease to exist."

Chief Justice Farmer declared that the fact that there are abuses that many complain of in our government is not argument in favor of changing the form of government but of changing the men selected to administer its affairs.

A THOUGHT
Happy is the man whom God correcteth; therefore despise not the chastening of the Almighty.—Job 5:17.

Truth is a good dog; but beware of barking too close to the heels of an error, lest you get your brain kicked out.—Coleridge.

That is a hackneyed phrase about doing your Christmas shopping early. Nevertheless December first is a fine time to begin thinking about it. Remember that Thanksgiving day and Christ-

mas this year about a week nearer together than usually happens.
Decatur has a wonderful lake and water system which was financed on the Jacksonville plan. Decatur also has a new reduction plant that cost more than a million dollars and a Jacksonville young man, Durrell Hatfield, has been secured as an expert to superintend the plant. All credit to Decatur but—

In Massachusetts this year 2,000 automobile owners have lost their licenses because of violation of traffic laws. This system has been in force in the New England state for a number of years and as a result the number of fatal automobile accidents in that state has been small.
Evidently the system of revoking licenses is much more effective than either fines or even jail sentences.

John Looney, who fled from Rock island months ago, is said to have been arrested in New Mexico by federal agents. This man, alleged to have been the leader of a vice ring in Rock island is to answer a federal charge. His arrest after continuous search keeps up the tradition

that the federal government never quits in its pursuit of offenders against federal laws. The time will yet come when this respect for Uncle Sam as a law enforcer will extend also to the 18th amendment.

A YEAR'S SAVINGS
According to the savings reports, it has not been by any means a poor year financially in the United States. It has not been even an ordinary year. The American Bankers' association reports that in the fiscal year ending June 30, the American people added \$1,041,000,000 to their savings accounts. That was not only a big gain in itself, but it was 6 per cent more than the savings of the previous year.
American banks have about \$35,000,000,000 in them, of which \$19,000,000,000 are in savings accounts. No wonder the world envies American prosperity and financial solidity.

Readers may be interested in the relative saving power of the different sections of the country. New England has \$405 per capita in the savings banks; the Middle Atlantic States, \$270 per capita; the Pacific States, \$199; the East Central States, \$147; the West Central States, \$94; the Southern States, \$45. "New England thrift" still leads.

CORN HUSKERS
Corn husking has ceased to be work and become a sport. On Nov. 26 John Rickelman with husking 44.6 bushels in two hours and 20 minutes, while Paul husked 40.5 bushels. Both men were penalized for missing corn in their rows, Paul suffering a reduction of 62 pounds and Rickelman 22 pounds.

A scientific calculation made by an expert of Iowa State college credited Rickelman with husking 44.6 bushels in two hours and 20 minutes, while Paul husked 40.5 bushels. Both men were penalized for missing corn in their rows, Paul suffering a reduction of 62 pounds and Rickelman 22 pounds.

Anyone who has ever seen corn husked may admit that there is just as much competitive fun possible in that pursuit as in pitching horseshoes or playing golf, or any other unproductive pastime. It is especially appropriate that competition should be encouraged in the harvesting of the biggest food crop on earth.
Why not go on to national championship contests, with a substantial prize awarded by the Department of Agriculture? We hope to see the day when this peculiarly American sport finds a place in the Olympic games. The whole world needs corn huskers.

KNIGHTS OF PYTHIAS NOTES

At a meeting next Thursday night arrangements will be made for receiving a class of 25 candidates. It is expected that this special ceremonial will take place on the evening of Dec. 26, and a committee including James Peak, Frank Bracewell and Harry Herling has been appointed to have charge of the arrangements.
The preparations are well under way for the Deka ceremony to be held next Tuesday night. A number of candidates will be initiated and a banquet will be served.

At the first meeting in January the annual roll call of Favorite lodge No. 376 will be held and the plans now under way indicate that this will be an unusually important occasion in the history of the lodge. The committee arranging for this event includes J. E. Scott, Charles Rinehart and O. H. Cook.

ARRESTED ON CORN STEALING CHARGE
Albert Johnson, who claims an adjoining state as his home, was arrested by Sheriff Wright and deputies Thursday and is now in the county jail. He is accused of stealing corn from the field of Earl Bourn a few miles from this city.

BY BERTON BRALEY
Bill plays pool with a skill uncanny
Learned by practicing year on year.
No break of the game can get his nifty.
His hand is steady, his brain is clear.
He plans and studies his mode of playing
With concentration on every shot.
He's always figuring, doping, weighing
Which chance is proper, and which is not.
VET pool is merely Bill's recreation,
A game he plays when the work-hours end
An office job is his real vocation,
On THAT his room and his board depend.
Since that is the task by which he's living
You'd think he'd tend to it, as a rule,
And give it at least the thought he's giving
To educating himself in pool.
BUT no—Bill dawdles and shirks and fuddles,
He views his job with a listless eye,
He loafs and stalls and he fakes and muddles
And merely figures on "getting by."
Yet still he growls at his poor position,
His "rotten boss" and his "measly pay."
Though all he needs is the same ambition
Applied to work that he gives to play!

GOLDEN RULE SUNDAY FOR NEAR EAST FUND
Novel Plan of Raising Money to be Tried Tomorrow—Students Will Eat Simple Meal and Give Difference to Orphan Children.
Plans are underway to observe tomorrow of what is known as "Golden Rule Sunday." In order to secure additional funds for the Near East relief, it is desired to work the plan in this city and local residents are asked to co-operate as far as possible. The idea is for those observing the day to eat one meal consisting of the same food that is fed to the thousands of orphans for whom the Near East Relief organization is caring. This would consist of bread and beans, or bread and rice. Those who are willing to eat this simple meal are asked to give the difference in cost between it and the usual plentiful supply of food, to the Near East Relief. President Coolidge is following this plan tomorrow.
Students of Illinois college, both at the boarding club and Academy Hall, will eat such a meal one day next week, and will give the difference in cost to the relief fund.
There are now 110,000 children being cared for in Palestine and other eastern countries by the Near East Relief. These children have no other means of support. Graciously however, the need is diminishing, as year by year the children become self supporting.

DR. W. O. WAIT IS INJURED BY AUTO

Well Known Resident Sustains Broken Leg When Struck by Auto Near Christian Church Thursday Evening.

Dr. W. O. Wait is at Passavant hospital suffering from a broken leg and other injuries which he sustained Thursday night when he was struck by an automobile near the Christian church. The injured man was hurried to the hospital and there it was found that he had a fracture of the left leg just above the ankle, a scalp wound and several bruises about the face.

Dr. and Mrs. Wait were on their way to the Christian church when the accident happened. They had left their car

across the street from the church and were attempting to cross the street when a passing car struck Dr. Wait and he was thrown to the pavement.

The car was driven by Russell Cox, who was accompanied by Virgil Smith and Russell DeWitt. It was stated that the lights from a car which had just turned the corner, blinded the Cox boy and it was for this reason that he did not see Dr. Wait. The occupants of the Cox car offered all possible assistance to the wounded man, but he was taken to the hospital by a friend who happened to be nearby. Dr. Wait's many friends are sorry to learn of the accident and are glad the injuries are not of a more serious nature.

Here's a popular way to serve Kellogg's Bran—greatest health food!

Most every one who realizes how effective Kellogg's Bran is for the permanent relief of constipation has their own particular way of serving this wonderful cereal. Most families eat it as a cereal with milk or cream. Others sprinkle it on their favorite hot or cold cereal. Every one enjoys its nut-like flavor!

If you are cooking a hot cereal try this method:—Measure off two table-spoonfuls for each member of the family. Mix it with the cereal and cook as you always cook the cereal.

Kellogg's Bran is scientifically prepared and ready to eat, but its regulatory powers are in no way impaired if you cook it with other cereals.

Kellogg's Bran has won the friendly recommendation of physicians because it does give prompt and permanent

relief from mild or chronic constipation and because it can be eaten without forming a habit. Again, Kellogg's Bran will free you from drastic, dangerous cathartics.

When constipation conditions exist in your system or when you are threatened, do not take half-way measures. Foods with a partial bran content cannot free you! What you need is ALL BRAN! Go the limit; get relief!

Every member of your family will delight in eating Bran raisin bread, muffins, pancakes, macaroons, etc. Recipes on every package.

Start eating Bran to-day! Get well—keep well—keep disease out of your home! First-class hotels, clubs and restaurants serve Kellogg's Bran in individual packages. All grocers.

H. S. CARNIVAL PROVED VERY SUCCESSFUL

Class Stunts and Special Features
Pleased Large Audience Thursday Night.

Very unfavorable weather did not interfere with the carnival of the Jacksonville high school. The big auditorium was crowded Thursday night for the formal program and afterward the hundreds of people present liberally patronized the various booths and special features.

The Junior class staged several musical features. Then came a day nursery scene by the freshmen class. The sophomores offered a jazz wedding as their contribution. Then the program was concluded by the seniors who presented a musical revue with various specialties and a complete minstrel show.

All of the "stunts" were cleverly given and indicated the interest taken by the high school pupils and by those who assisted them in the extensive preparations for this annual Thanksgiving event. The booths and side shows arranged by the several classes were of a kind to entertain and amuse, and the patronage was liberal. The sale of refreshments began even before the general program and continued clear up until the signal came for "lights out."

The popularity contest was featured in one of the booths, ten votes nominating a girl or boy for entrance in brains, beauty and popularity contests. In the popularity contest Maurine Bradley and Earl Tilton won honors. In the beauty contest the prizes went to Eudora Milburn and Floyd Sanders, and in the brains contest Georgia Terhune and Ernest Olds were pronounced the winners. In every way the carnival was accounted a success.

VARIED PROGRAM FOR ROTARY CLUB

A "stunt" had important place on the program of the Rotary club luncheon at the Pacific hotel Friday noon. President A. H. Dollear placed the meeting in charge of E. M. Spink, chairman of the program committee.

After a "play" had been elaborately staged by a cast including Dr. R. V. Brokaw, J. K. C. Pieron, C. E. Segner and Walter DeShara, ten in the audience were asked to write answers to ten questions relating to the performance. Then the answers were read and the percentages ranging from 10 to 90 gave a very clear idea of the way that witnesses will vary in their testimony about the same set of happenings.

Mass singing was led by W. H. Marbach and the club had special pleasure in listening to a group of songs sung by Russell Knox of White Hall, with Miss Florence Chapin as accompanist. Mr. Knox has a voice of rare quality and sang in a way which enthralled his Rotarian audience. Worthington Adams of St. Louis and Charles S. Black of Jacksonville were the guests of the day.

Mr. Lynch was a farmer in the Franklin neighborhood being all his life a resident of this county. He is survived by a number of relatives in the east. Funeral services will be held at 9 o'clock Monday morning from the Church of Our Savior, with interment in Calvary cemetery.

ANNUAL SERVICE IS WELL ATTENDED

Rev. Spoon's Preaches Thanksgiving Sermon at State Street Church—Other Ministers Take Part

"Giving thanks always for all things unto God and the father in the name of our Lord Jesus Christ," were the words of the text used by Rev. W. E. Spoon in the Thanksgiving sermon at State street church Thursday morning. Rev. Spoon said that America has numerous things for which to be thankful. The country has been signally free from famine and pestilence during the past year; millions of dollars have been given to charity; a reasonable amount of business prosperity has existed; evangelism has been fruitful of souls in the Kingdom.

The service was well attended. Music was furnished by the choir consisting of Mrs. Carl Robinson, Miss Fern Haigh, Hackett Wilder and M. A. Peckham, with Mrs. H. E. Bullard at the organ. Rev. W. H. Marbach presided during the service. Rev. G. E. Stickney pronounced the invocation, Rev. H. B. Lewis led the responsive reading, Rev. G. W. Randle read the president's proclamation, Rev. T. W. Smith read a Psalm of Thanksgiving, Rev. A. P. Howells made the appeal for gifts and a good amount was contributed and turned over to the Social Service League, Rev. C. D. Robertson had charge of the offering, and Rev. J. F. Langton pronounced the benediction. Mrs. Carl Robinson sang a solo, "A Song of Thanksgiving."

I. C. CARNIVAL IS DECIDED SUCCESS

Minstrel Is Enjoyed by Large Crowd at Gymnasium—Side Shows are Attractive Features.

The carnival held last evening in the Illinois college gymnasium was a decided success, and was largely attended by students and local residents. The chief feature of the program was the minstrel show, which contained a number of good songs and jokes. Lester Cornick was the interlocutor and Russell Henry Ben Negus, George Govett, John Martin, Ernest Savage and Tom O'Brien made good end men.

The two fortune tellers, Miss Eunice Williamson and Miss Betty Palmer, were among the feature attractions, as was Miss Lillian Swift, the Hula-Hula dancer. There was a freak room and a mysterious side show known as the "Grand Blow-out." Plenty of eats and confections furnished refreshments and merriment for the crowds.

"THE CAT AND THE CANARY" AT THE GRAND

On every side is heard "Why the Cat and the Canary?" To learn the answer, it is essential that one must go and buy a ticket for the Grand next Thursday night, when Kilbourne Gordon, Inc., present John Willard's play of that name which makes shivers run up one's back and provides the finest sort of theatrical entertainment.

It is not easy to get an answer to the question otherwise because the producers absolutely refuse to divulge the plot and the public enters into a conspiracy to keep it from all who do not go to see the drama. "The Cat and the Canary" is one of the three plays with a mystery theme to win a wide public and in all these cases the public played the game and outsiders were never told the story. "The Cat and the Canary" will be enacted by an excellent company, and the production will be exactly as was the one used during the run of 359 performances in New York.

STATE STREET CHURCH SUNDAY SCHOOL

SERIOUS AUTO WRECK AT ALEXANDER CURVE

Car Belonging to Martin Cosgriff Suffered into Creek Thursday Night—Tires Stolen from Wreck

The Buick roadster belonging to Martin Cosgriff was totally wrecked Thursday night when it plunged over the embankment at the curve on the hard road just this side of Alexander. Tom Cosgriff, who was coming from Springfield in the car with Martin Cosgriff and two other local men, was slightly injured, the fingers on one hand being cut.

Martin Cosgriff was driving the car and in rounding the curve encountered the bright lights of an approaching car. Being blinded, he was unable to make the

turn, and his machine went thru the guard rail and down the bank, turning over four times. The machine and its occupants landed at the bottom of the small creek which goes under the road at this point.

The climax to the accident was furnished by the theft of two brand new tires from the wrecked machine after it had been abandoned by the Cosgriffs. A local garage was notified to send for the wreck and bring it into the city. When the garage men arrived at the scene yesterday morning, they discovered that the tires had been stolen during the night.

LOCAL GAS FIELD ATTRACTS ATTENTION

Oil City Derrick Calls Attention to Development in Area North-east of City.

The Oil City Derrick, in a quoted article from the Oil and Gas Journal, gives Morgan county credit for a gas field at least worth investigation. Here are the paragraphs:

Some excitement prevails near Jacksonville, in Morgan county, over the finding of an excellent gas volume at a shallow depth of from 325 to 375 feet, but the question is if the gas will show

staying qualities at that depth. Like wells in the deeper pay sands, these wells are west of Springfield, the capital of Illinois, and if the wells show their value, the distance for piping to the capital is not any great distance. Some couple of years ago Frank Byrns, a prominent citizen of Jacksonville, drilled in a light oil well in section 8, about three miles from the recent completed gas wells, and the possibilities are for both a new gas producing area as well as an oil field of shallow producers.

As far as reported, four gas wells have been drilled by C. P. Irwin and others covering three sections and all have proven producers, so that the field already covers a distance worth looking

after. Nos. 1 and 2 O. O. Harris, section 2-15-9, of Morgan county, are both estimated as large producers of gas and reports are that they show from 5,000,000 to 10,000,000 cubic feet at the shallow depth. A light gas well was drilled in section 10-15-9, while the latest completion in section 2-15-9 is estimated around 3,000,000 cubic feet. If these wells show the volume reported they should attract wide attention.

Miss Jean Medley left last night for a Chicago visit.

Apple Recipes

This year apples are so plentiful and perfect that it behooves every housewife to use them as often as possible.

Although apple pie has been called "the great American dessert" it falls if used as a steady diet.

These apple puddings have more food value than apple pie and are delicious and novel.

Apple Meringue Pudding
One and three-fourths cups stewed apples, 1-2 teaspoon nutmeg, 2 teaspoon cinnamon, 1 tablespoon orange juice, 1 teaspoon grated orange rind, 1 tablespoon butter, 1 egg, 1-4 cup sugar, 1 teaspoon cornstarch, 2 tablespoons powdered sugar, few grains salt.

It will take three to five apples, depending on the size, to make the required amount of sauce. Stew in as little water as possible to prevent burning. When tender rub through a sieve. While hot add spices, butter, grated rind and juice of orange, salt and well-beaten yolk of egg. Beat well. Mix sugar into mixture. Turn into a buttered baking dish and bake, covered for 20 minutes in a moderate oven. Beat white of egg until stiff and dry with one tablespoon cold water. Beat in sugar and spread over pudding. Return to the oven to brown the meringue.

Blushing Apples
Six apples, 6 tablespoons sugar, 3 tablespoons butter, 1-8 pound tiny red cinnamon candies 1 cup boiling water.

Select red apples and pare,

leaving a band of skin around the center. Remove core. Arrange in a baking pan and fill cavities with butter and sugar. Add water and drop in the candies, sprinkling them over the apples as much as possible. Bake in a slow oven, basting frequently with the juice in the pan, when tender remove from oven, arrange on individual plates for serving and pour over sirup. Let cool. The sirup forms a jellied coating over the apples. Serve with or without whipped cream.

Brother Jonathan
Six apples, 1 cup flour, 2 teaspoons baking powder 2 table spoons butter, 1-2 teaspoon salt, water, 1-4 cup sugar, 1 teaspoon cinnamon, butter.

Pare, quarter and core apples. Butter a baking dish and put in apples, sprinkle with sugar and cinnamon and dot with bits of butter. Add a very little water to prevent burning until the apples begin to bake. Make a dough of the flour, salt and baking powder sifted together, the butter rubbed in with the tips of the fingers and the water cut in with a knife. Spread over apples and bake in a moderate oven until apples are done. Serve warm and with sugar and cream.

Apple dumplings are made with this same dough. The dough is rolled about three-eighths of an inch thick. Cut in circles and arrange sliced apples in center. Pull edges of dough together and bake in a moderate oven. Baste with hot water. The apples are seasoned as in Brother Jonathan.

Old-Timers
All is not gloom. That ancient institution, free lunch, is returning here and there in New York City. A reporter partakes in five "soft drink parlors." Refreshments include such familiar old-timers as bologna, rye bread, cheese, herrings and cloves.

We could tell more, but refrain in the cause of efficiency. If some of our readers start reminiscing about free lunch the rest of the day will be ruined as far as work is concerned.

Eaters
Germany will have to import a lot of food, but she has produced more food this year than she consumed last year. This is the official report from Squire, Uncle Sam's agricultural commissioner in Berlin. Germany's crops this year are the largest since the war "but food consumption since the war has been below the pre-war standard and consumption this year cannot equal the pre-war standard unless a considerable amount is imported."

A man's less apt to pay his bills when he's hungry.

Shadow-Boxing
Nineteen thousand separate pieces of legislation, bills, were introduced in the last session of Congress. There'll probably be as many during the winter session.

We have a national delusion that all that's needed to solve a problem is to pass a law. And this delusion seems particularly assertive in problems which are beyond the reach of legislation, and which are solvable often by economic or moral evolution, often both.

Strength
George N. Crow, Ottawa contractor, claims he has the strongest team of horses in the world. George says his team, weighing 36,000 pounds, recently hauled a 34,000-pound piece of machinery 500 feet, in a six-ton vehicle. Fortunately the motor truck is rapidly putting an end to this sort of thing.

Rather late in the day, it's discovered that a can of pebbles, rattled by the driver, stimulates a horse more than a whip.

POCKETBOOK NEWS

How about business conditions? Are times going to be good or bad? . . . Well, the iron industry looks encouraging. And experts for years have considered pig iron production a weathervane of general business. It's supposed to rise or weathervane aof general business six months ahead of other lines.

Iron output in October was a trifle more than in September, a customary seasonal movement. October production was quite a bit less than in May, the record month, but production last spring was so excessively big that a reaction was inevitable.

October output of pig iron averaged over 101,000 tons a day. In October, 1914, the average was not much more than half as big. As long as our basic or key industry is stepping it off nearly twice as fast as before the war, there's no excuse for pessimism.

Steel industry not only is busy it's preparing to continue so.

LATEST NEWS OF THE SPORTING WORLD

CARLINVILLE TRIMS JACKSONVILLE HIGH

Although the Crimson and White Put up Strong Battle in Mud the Macoun Boys Were Too Strongly Entrenched—Score 25 to 0.

Although Jacksonville High went down to defeat in their game Turkey Day by a score of 25 to 0 before a crowd of 1500 damp, shivering fans, they put up a game worthy of credit, considering the scores piled up by Carlinville against the leading teams of this part of the state. The gridiron was a complete sea of mud and water, but the visitors battled consistently against the conditions and against the hardest foe they have tackled during the present season.

In the first quarter the Macoun boys pushed the oval over for their first touchdown within five minutes of the starting whistle and also made the additional point. From then until near the

close of the second quarter it was principally a punting game, when just before the close of the half Carlinville again took it over for six more points, with no goal. In the third quarter in spite of the plucky battle put up by the visitors, Skinner got away for an 80-yard run for six more points, after he had fumbled the ball on his own 20 mark, but he shook off two opponents and exhibited a splendid zigzag run for the distance. Carlinville again scored 6 points during the third quarter. In the fourth session Jacksonville came back fighting and twice got the ball within close range of the enemy's stronghold but could not go over. According to reports, Lewis and Skinner of Carlinville were the main causes of the downfall of our boys by their slippery ways on end runs. Jacksonville's backfield all worked like Trojans all making some neat gains.

The following is the line up for Jacksonville: Massey, le; De-weese, lt; Adkins, lg; Smith c; Curtis, rg; Hopper, rt; Sanders, re; Arnold, qb; Harrison lbh; Corbridge, rhh; Johnson, fb.

TIGERS LOSE GAME BY SMALL SCORE

Playing in Sea of Mud and Water, Ringel of Kansas Got Away for a Seventy Yard Run for Only Score—Tigers Play Strong Game

Although the Kansans defeated the Tigers Thanksgiving afternoon by a score of 6 to 0, the locals should nevertheless be very proud of the game which they put up. Outweighed by an average of more than 10 pounds to the man, and playing on a field which was a veritable sea of mud and water and in a cold pouring rain during the whole session, the little plucky Tigers made the visitors realize that Jacksonville also knows what constitutes a real football game.

Kansas had a well balanced team and their interference was near perfect, but the outstanding star of the bunch was Fullback Ringel who was one of the best open field runners seen here this season. In the opening quarter after a very few minutes of play he recovered a punt and with splendid interference ran 70 yards for the first and only touchdown during the whole game, the visitors failing goal for the extra point.

Willard Rose was, if anything, the most outstanding performer for the Tigers and he also showed by his game that he is a consistent open field runner, his gains in most cases equalling those of his rival, Ringel. Under the conditions, it was extremely difficult to judge the relative strength of the two teams, but it is a fact that after the one disastrous touchdown, the Tigers kept the ball in Kansas territory the greater part of the time and really threatened goal once or twice, especially near the close of the game. In spite of the weight of their opponents, the Tigers several times held them for downs in the last quarter.

Although it was a most disagreeable day, both sides of the field were lined with cars and quite a number braved the elements on the open bleachers. Before the game, Missouri School wired that they wished to be the first to congratulate the winners, and the former boys of the Illinois school, now students at Galadet college in Washington, D. C., laconically wired, "Beat Kansas." At the end of the half, Major Fancher appeared on the field with his boys, headed by a drum corps, and the marchers wearing red caps. After the long string of boys reached the field they proceeded to form by march tactics, first the letters, "I. S. D." and followed this by showing respect to their visitors by forming their letters, "K. S. D." making a very pretty spectacle.

On account of the almost impossible condition of the field, forward passes were conspicuous by their absence from the play only one, Rose to Taylor, being successful, although the Tigers tried it several times near the end of the game. In the slippery mud a great many of the runners were kind enough to tackle themselves, as many a beautiful run for both sides was spoiled by the runner slipping while just at the point of breaking away for a good gain.

Crack Cornell Guard

J. H. BEREAN

If Cornell wins over Pennsylvania on Thanksgiving Day, and it looks like a certainty, Dobie's great team will be ranked among the first three. While some of the experts insist Cornell has played a hand-picked schedule it is stretching the point, as games with Colgate, Dartmouth

and Penn cannot be considered as soft. A good defense has played a leading role in the success of the Ithacans. The work of Guard Borean in holding the opposition is worthy of more than passing mention. He looms up as one of the best forwards in eastern football.

Western Conference Athletic Heads Meet

CHICAGO, Nov. 30.—(A.P.)—Major John L. Griffith, commissioner of athletics of the western conference for the last two years, tonight was reappointed for another two year term with an increase in salary, at the annual meeting of the athletic directors of the "Big Ten" universities. The athletic directors met preliminary to the meeting of the football coaches tomorrow when the gridiron schedules for 1924 will be drafted.

The re-appointment of Major Griffith, the directors said, was a reward for his efficient administration. The position was created to promote more friendly athletic relations between the universities and also to pass on numerous eligibility cases.

After considering the plea of the football officials, who demanded an increase to \$100 from \$50 for officiating, the directors voted to recommend a compromise fee of \$75 for each official. The recommendation probably will be favorably agreed upon by the faculty committee of the "Big Ten" at its session tomorrow. The directors also unanimously voted to raise the fee of the basketball referees from \$20 to \$35 while the umpire's fee of \$25 will remain unchanged.

The directors, after an all day session, went into conference with the faculty representatives to night to make their recommendations and discuss questions governing athletics for the 1924 season.

The meeting of the directors and gathering of the football coaches buzzed with excitement today over the prospects of arranging intercollegiate games for next season. It is practically assured, however, there will be only a few changes in the gridiron slates of any team.

The prospects for a 1924 battle between Illinois and Michigan, which divided honors this season, appear bright.

Coach Yost of the Wolverines asserted he would be glad to arrange a game, provided a satisfactory date could be agreed upon. Yost said Minnesota, Ohio State, Iowa and Wisconsin would be played in 1924, and if his dates could be arranged to accommodate Illinois he would be pleased.

Coach Stagg of Chicago declared he had no correspondence with eastern teams relative to an intercollegiate game and there probably would be no radical change in the Maroon schedule for next season.

Coach Spaulding of Minnesota is anxious to arrange a game with either Chicago or Illinois, but asserted that Michigan, Wisconsin or Iowa would not be dropped from the Gopher schedule.

Coach Rockne of Notre Dame said his 1924 schedule would be limited to nine games and if possible he would arrange a game with Wisconsin.

ZUPPKE HOPES FOR GAME WITH MICHIGAN

URBANA, Ill., Nov. 30.—Robert Zuppke, Illinois football coach and his assistant, Burt Ingwersen, will leave for Chicago tomorrow morning where coach Zuppke will arrange the 1924 gridiron schedule of the Illini. Hope of a resumption of football relations with the University of Michigan, interrupted this season for the first time since 1918, is high at Illinois in view of Coach Fielding Yost's modification of his statement that Michigan could not meet the Illini and of Coach Zuppke's willingness to give the Wolverines almost any date they wish.

Director George Huff and a half dozen other Illinois catches are already in Chicago for the slate making activities tomorrow.

GREAT CHANCE FOR REDS

Pat Moran feels positive that the strength of his pitching staff will be enough to return the Cincinnati Reds as pennant winners in the National League next season. Moran witnessed the slaughter of McGraw's pitchers in the world series and is convinced that unless McGraw can dig up at least two dependable twirlers he is going to have his troubles winning again in 1924.

FRESH-SOPH GRID TILT ON TODAY

The annual Freshman-Sophomore football game will be held on College Field this afternoon at 2:30 o'clock and should furnish sufficient amusement for the average spectator on account of the fact that this annual affair always brings out great rivalry between the two classes and especially as the present Sophs last year, while Freshies, captured the bacon and will try hard to repeat this year.

Both classes have several members who have made a good showing with the varsity this season and the two teams should take the field very evenly balanced. A nominal charge of ten cents will be made at the gate and as all other games are over it is expected that a good crowd will attend.

The following is the prospective lineup of the two teams:

Sophomores	Pos.	Freshmen
Vandeventer	Left End	Groves
Wills	Left Tackle	Smith
Shaefer	Left Guard	Bracewell
Schroeder	Center	Hackett
Hoskins	Right Guard	Fogleman
Habercorn	Right Tackle	Frazer
Johnson	Right End	Shields
Hopper	Quarterback	Beecher
Henry	Left Halfback	Petefish
Elder	Right Halfback	Bradish
McGee	Fullback	Irving

ROUTT TOO MUCH FOR FRANKLIN HIGH

Devlin Intercepts Pass and Makes Forty Yard Run for Only Touchdown in Mud Game—Routt Threatens Often

Routt High proved that they were better mudders than the members of the Franklin team on Thanksgiving afternoon by grabbing the long end of a 6 to 0 score on a field that tried the staying qualities of both teams.

The only touchdown of the game came when Devlin intercepted a forward pass and made a dandy 40 yard run to the goal. Twice more Routt got the pigskin right up to the goal, losing once by a penalty and the other time failing on a drop kick on account of the condition of the ball.

Devlin starred all thru the game, but all of the rest of the Routt men played the best game they have played during the present season, and had it not been for playing conditions, the visitors would undoubtedly have rolled up a beautiful score before the final whistle. Murphy, Devlin, Martch, White, Walsh and Fitzgerald, played their last game for Routt as they finish in the spring. Cooney, who was playing his first game under adverse circumstances. The Routt lineup follows:

Martch, le; Fitzgerald, lt; Walsh, lg; Cleary (Capt.) c; Early, rg; Sehy, rt; White, re; Devlin, qb; Cooney, lbh; Murphy, rhh; Henry, fb.

Referee, Wheeler, I. C.; Umpire, Peables; Waverly; Headlinesman, Bland, Franklin.

NEEDS FIRST SACKER
One of the big problems that Tris Speaker of Cleveland faces the coming season is the development of a capable first baseman. Brower was just so-so at first last year and it is understood that Speaker is figuring on someone else to cover the initial sack for the Indians. It is possible that Bob Knobe, former University of Michigan star, who was carried by Cleveland last year, will fill the bill.

The Salvation Army officers are
planning a Thanksgiving pro-
gram of songs, dialogues and re-
citations, to be given at 8 o'clock
Sunday evening at the barracks.
Such a program has not been
given for three years, and it was
thought that an evening of such a
nature would be especially ap-
propriate at this time. The pub-
lic is cordially invited to attend
the program and all other meet-
ings of the Army. Regular open
air and indoor meetings Saturday
evening at the usual time, and
the regular meetings Sunday, ex-
cept that the open air meeting in
the evening will begin at 7:15,
instead of 7:30.

NEW YORK, Nov. 30—Today's
post-holiday stock market with
many traders still absent, was
noteworthy chiefly for its dull-
ness. Price movements were un-
certain and inclined slightly
downward thru most of the day
with moderate rallies lifting a
few stocks sharply and others
moderately during the last hour.
The trading was almost entirely
in the hands of professional spec-
ulators and recorded a consider-
able amount of profit-taking.
Efforts to bear traders to take
advantage of the situation to
force a break in prices, despite
the relatively small number of
traders present, were unavailing
and the steady bidding up of spe-
cial stocks, including the low priced
oils, had its effect in the substan-
tial gains registered by a few
shares.

Davison Chemical again had an
active day, more than 20,000
shares changing hands. The stock
closed at 7 1/2 off fractionally
after running up at one time to 7 1/2.
Maxwell Motors A also fluctu-
ated widely closing fractionally
lower.

The contrary movements of the
usual leaders threw some light on
the uncertainty of the day's trad-
ing.

American Can was pushed up
more than 2 points, Baldwin ad-
vanced fractionally, while Stude-
baker and United States Steel
shed off.

Railroad stocks were fairly ac-
tive and price movements mixed.
Execution of a few buying or-
ders for public utility liens re-
sulted in some moderate advances
in the bond market, which was
rather dull. Total bond sales par-
value \$8,962,000.

CHURCHES

Grace Methodist Episcopal Church—Harry B. Lewis, pastor. One hundred per cent booster for Grace M. E. Sunday school has been discovered in the person of a lad of six or seven years who was heard to say to another boy: "You just ought to come to our Sunday school some time." Of course such enthusiasm won't result. Let's all be one hundred per cent boosters. 9:30 is the hour, with Thomas V. Hopper, the superintendent and his fine corps of helpers to welcome all who come. Classes for all ages. 10:45 a. m., public worship. College students' day. By request, the pastor will preach a special sermon for young people. Seats will be reserved for students to sit in a body. Our people should help to make it a great service. 3:45 p. m., Junior Epworth League. 6:30 p. m., Senior and Intermediate Epworth League. 7:30 p. m., evening worship. The second plain talk on practical themes by Dr. Lewis. Every member of the church is asked to help make the evening service what it should be, the popular service of the Sabbath day. Wednesday evening at 7:30, the mid-week service for prayer, praise and preparation for service. The ladies of Grace church have their plans completed for their annual bazaar and turkey dinner. It will be held at the church on Thursday afternoon and evening, December 6th. The bazaar all afternoon and evening is in charge of Mrs. F. H. Rowe and the dinner in charge of Mrs. George E. Baxter. Service will begin at 5:30. Information concerning reservation may be had from Mrs. Harry D. Adkins. The music for the day by the double quartet will be as follows: Morning, "Hark, Hark My Soul" (Shelley); "Seek Him That Maketh the Seven Stars" (Rogers). Evening, "Saviour Thy Dying Love" (Berwald); "Tarry With Me O, My Saviour" (Baldwin). A cordial invitation is extended to the general public to worship with the members of this church. Any desiring a personal interview with the pastor will kindly make their wishes known to one of the ushers.

Jacob Peltz, field representative department of Jewish Evangelization of the Board of Home Missions in the Presbyterian church will preach. Mr. Peltz is a graduate of the McCormick Theological Seminary. The Northminster church would extend a hearty invitation to Jews of Jacksonville to hear Mr. Peltz. The Sunday school at 9:30 a. m. William Bieber, superintendent. The Christian Endeavor will meet at 6:45 p. m. This will be a live meeting and all are invited to attend. The Sewing Circle will meet Wednesday for all day sewing.
